

Celebrate the Holidays Safely

Protect your health and your family's health.

Stay Home if You're Sick!

- Stay home if you test positive for COVID-19 and stay home if you test negative but have symptoms. This will prevent you from getting other people sick.

Free Gift: COVID-19 Test Kit

- Test yourself before going to an indoor gathering. If you test positive or are feeling sick, stay home.
- Free at-home test kits are available through your insurance.
 - There will be no cost to you after reimbursement if you have commercial insurance or Medicaid/Medicare. For details, check with your insurance company or visit <https://go.cms.gov/3Lqo0Yk>.
- Free test kits are available at local testing sites and testing events. Visit www.phila.gov/testing for information. For information about test kits available through local resource hubs, visit bit.my/COVIDResourceHubs

- **Plan to have a large event?** Free tests are available for you and guests at <https://bit.ly/SpecialEventsCOVIDTests>.

Get Vaccinated

- Get your updated, bivalent COVID-19 booster and flu vaccine as soon as possible and ideally, 2 weeks before your next celebration.
- Getting vaccinated can protect you from getting sick, protect you from passing the flu or COVID-19 to others and will protect the people you are celebrating with.
- To learn more about flu vaccines, visit <https://bit.ly/FluPHL>.
- To learn more about COVID-19 vaccines, visit <https://bit.ly/COVIDvaxPHL>.

★ Celebrate the Holidays Safely

Protect your health and your family's health.

Wear A Mask

- Wear a mask during gatherings to help prevent spread of respiratory viruses such as COVID-19, the flu and RSV.
- Visit <https://bit.ly/FreeN95s> for free masks from the Strategic National Stockpile.

Quarantine Before Celebrating

- As much as possible, avoid crowded public places before your gathering.
- If you are in a crowded or indoor space before your gathering, wear a mask.

Ventilate Your Space

- Host outdoors if possible.
- If outside won't work for your gathering, ventilate your space by cracking windows and/or use a HEPA filter to keep everyone safer.

Quick Tips

- Wash hands frequently; avoid touching your face.
- Cover mouth and nose when sneezing or coughing.
- Disinfect frequently touched surfaces to prevent the spread of viruses.
