

# WANT TO SPEND YOUR HOLIDAY WITH...

## COVID-19?

COVID-19 can make you sick for up to two weeks with sore throat, cough, fever, and fatigue. It can lead to serious health problems, especially for older adults and people with certain medical conditions.

**Don't miss out on special moments with your loved ones. Get your family vaccinated against COVID-19!**

### Where can I get vaccinated?

You can get your updated COVID-19 vaccine at your doctor's office, a pharmacy, a federally qualified health center (FQHC), or a city health center.

**SCAN THIS QR CODE TO FIND A DOSE NEAR YOU!**

## Who can get the vaccine?

**Everyone 6 months and older can get the COVID-19 vaccine!**

Certain people are more likely to get severe COVID-19 disease and are especially encouraged to get vaccinated, including:

- Adults over 65 years old
- People with certain medical conditions like diabetes, obesity, COPD, heart disease, and kidney disease

## Why should I get a COVID-19 vaccine?

*There are many reasons for you to get a COVID-19 vaccine:*

- Reduces the risk of severe disease or hospitalization
- It is safe and effective
- Keeps you and your family from missing school and work

## Where can I learn more?
